fpowell@forestlakechurch.org

Mission

Our mission is to provide for the special needs of our senior members, especially those who may become isolated by poor health, hospitalization and/or dependency, in order to minimize the possibility of senior or handicapped members becoming isolated and feeling neglected or forgotten.

Program

- Maintain a current list of seniors, particularly those who cannot regularly attend Sabbath services
- Provide an intentional visitation plan whereby senior members and/or handicapped members are regularly visited
- Develop an active group of church elders and qualified volunteers to assist in the visitation program
- Provide assistance and support in times of transition and crisis
- Provide assistance in the planning and implementation of funeral services
- Provide pastoral care to members, as well as their families, who are hospitalized or in extended care facilities
- Offer senior member fellowship through Young at Heart activities
- Be responsible for the distribution of videos and cassettes of Sabbath services and Sabbath School lesson quarterlies to homebound and nursing home members

If you are interested in assisting in any of the above activities, please share your interest by contacting:
